

JAVA PLACEMENT TRAINING - DAY 3: TASKS

1.EVEN NUMBER B/W 6 TO 55

```
class EvenNumbers {
    public static void main(String[] args) {
        for(int i=6;i<=55;i++){
            if(i%2==0){
                System.out.println(" "+i);
            }
        }
    }
}
```

2.MULTIPLICATION TABLE PROGRAM

```
import java.util.*;
class multiplicationTable {
    public static void main(String[] args) {
        Scanner sc=new Scanner(System.in);
        int tab=sc.nextInt();
        for(int i=1;i<=20;i++){
            System.out.println(i+"*"+tab+"="+i*tab);
        }
    }
}
```

3.FACTORIAL PROGRAM

```
import java.util.*;
class Factorial {
    public static void main(String[] args) {
        Scanner sc = new Scanner(System.in);
        int n=sc.nextInt();
        int fact=1;
        for(int i=1;i<=n;i++){
            {
                fact*=i;
            }
        }
        System.out.print(fact);
    }
}
```

4.PASSWORD RETRY SYSTEM(Using while loop +Condition)

```
import java.util.Scanner;
class PasswordCheck {
    public static void main(String[] args) {
        String correctPassword = "abcd";
        Scanner scanner = new Scanner(System.in);
        int attempts = 0;
        while (attempts < 3) {
            System.out.print("Enter password: ");
            String input = scanner.nextLine();
            if (input.equals(correctPassword)) {
                System.out.println("Access granted");
                break;
            } else {
                attempts++;
                if (attempts < 3) {
                    System.out.println("Incorrect password. Try again.");
                } else {
                    System.out.println("Access denied" );
                }
            }
        }
    }
}
```

5. PRIME NUMBER

```
import java.util.*;
class Main{
    public static void main(String[]args){
        boolean flag = true;
        for(int i=2;i<=10;i++){
            for(int j=2;j<i;j++){
                if(i%j==0){
                    flag=false;
                    break;
                }
            }
            else{
                flag=true;
            }
        }
    }
}
```

```
        if(flag==true){  
            System.out.println(i);  
        }  
    }  
}
```
